In Paris, September 2020 to January 2021. .

... a large and historical exhibition dedicated to the *Merinos de Rambouillet* will be held in Paris at Musée des Archives Nationales (National Archives Museum) housed in the Hôtel de Soubise, 60 rue des Francs-Bourgeois, in the 3rd arrondissement.

This exhibition, fuelled with historical collections of the Bergerie Nationale de Rambouillet - drawings, writings, photos, wool samples and original genetics, will trace the conditions of the introduction of the Merino in France (1786), its breeding in Rambouillet up until today, and its expansion all over the world.

You can also take the opportunity to make a technical visit to the Bergerie Nationale in Rambouillet where the 8th World Merino Conference was held in 2010.
